## The Slimmest **On-The-Go** Monitor

Triple Your Working Productivity with BladeX

15.6" 1080P/4K

4.5 mm Thickness

Touchscreen

Type-C Charging

1.89 lbs Weight

3000 mAh\*2 Battery

BladeX is one of the most lightweight and compact on-the-go external monitors available today. At under 2 pounds, it is easy to store and travel with. It's available in 1080P and 4K high definition versions and this 15.6" monitor promises to boost your productivity by up to 50%. The BladeX is notable for its super slim 4.5mm profile and makes the perfect travel companion. Just plug into it with USB-C or HDMI and you're ready to work with the convenience of double monitors wherever you are!

# Designed For **Daily Essentials**

With USB-C and HDMI ports, BladeX can satisfy your daily screen needs on the job in every situation. A slim and compact extension monitor that serves as your business and personal travel companion.

## Stay Productive, Stay Energized

These days a lot of people prefer two monitors on their desks. BladeX is a super slim 1.89 lb. monitor, perfect for turning your laptop into an optimized desktop, but in a much more compact way. Wherever you go, you can always stay productive and on task.

## Play Your Games On Big Screen

Wherever you go, simply plug in your gaming console or smartphone and start running your favorite games. Your games become larger, more detailed and easier to play.

### Turn Your Smartphone Into A Laptop

Your smartphone\* is an incredibly powerful computer. By connecting it to BladeX, you can do  
<https://saintine.store/products/bladex-the-slimmest-on-the-go-monitor/>

Your smartphone is an incredibly powerful computer. By connecting it to BladeX, you can do everything you can do on a laptop—and more. With desktop-class browsing, access to office applications, games, and email, the possibilities are limitless.

## Use anywhere

You can connect the BladeX to a laptop so that you can have a dual-screen setup to use at home or on-the-go. Or connect it to your smartphone or game console when traveling. It's basically a big Surface Pro without a computer or a tiny TV without a tuner. Even share the screen with a colleague when working remotely. It's a great way for colleagues and remote teams to collaborate, share and increase productivity.

BladeX

# The Slimmest Monitor Ever

**Portable**

With an ultra-slim 4.5mm profile, BladeX is ultra-light and ultra-portable. Traveling with a monitor has never been easier.

**Built-in Battery**

Its on-board 3000mAh battery delivers a solid three hours use-time between recharges  
<https://saintine.store/products/bladex-the-slimmest-on-the-go-monitor/>

its on-board 6000mAh battery delivers a solid three hours use time between recharges.

## Extra Efficient

Type-C fast charging brings convenience and efficiency to your life. BladeX has two USB-C ports, one for PD charging and one for video input. The BladeX touchscreen works only with USB-C.

## One For All

Simply plug in Type-C/HDMI port, and you're all good to extend your screen to BladeX. Laptop, iPad, smartphone, PlayStation4, NTD Switch, Xbox, you name it.

## Stand It Up And **Fit Your Needs**

### Landscape Mode

It broadens the view and assists with multi-tasking. You can either extend the monitor to create more productive desktop space or mirror the monitor to share the screen.

## Portrait Mode

It stretches out the view for document reading, coding, and other extended applications.

## Studio Mode

I lay the monitor down flat for a more comfortable watching/writing/drawing position or when it's time
